

Online Safety Training (LMS)

Get Online for Instant Compliance

Get the flexibility to create and manage custom learning plans, ensuring employee safety training is always aligned with your company's objectives. Using our cloud-based Learning Management System (LMS) your team can access training videos, interactive screens and quizzes from anywhere, anytime. A simple and intuitive interface provides for easy reporting, better monitoring and control of employee training programs and certifications. And take advantage of our custom branded portal, printable materials and certificates to deliver a seamless training experience for your team.

LMS Training Benefits Include:

- ✓ Choose from hundreds of safety courses, general and industry-specific
- ✓ Access training content from anywhere, anytime
- ✓ Easily manage training for individuals, groups and sites
- ✓ Deploy, manage and track learning plans
- ✓ Training platform and certificates, custom-branded for your company
- ✓ Includes additional storage for training managers
- ✓ Upload and manage important safety documents, certifications and wallet cards
- ✓ Pre-built and customizable reporting, goals and metrics tracking
- ✓ Subscriptions available for companies of all sizes

Convenient. Effective. OSHA Compliant.

Ongoing safety training should be included in the blueprint of your safety and compliance program. Because OSHA laws and standards change, it is important to partner with a safety company who can ensure you are always compliant.
