

# COVID-19

## 5 WAYS TO STRENGTHEN YOUR SAFETY PROGRAM

### Hold Regular Safety Meetings

1

- A 10-minute meeting to discuss new procedures will make a difference for your employees and keep your workplace safe.

### Offer Additional Safety Training, Either Online or On-Site

2

- Educate employees about workplace hygiene and best practices in a format that's most effective for them. Be sure to follow guidance from the CDC.

### Ensure your Safety Manual is Up to Date

3

- Document new process and procedures. Consider adding specific policies for "Pandemic Preparedness" or "COVID-19" (Many clients are requiring them).

### Display Safety Information in the Break Room or other High-Visibility Areas

4

- Create a safety focused culture by keeping best practices top-of-mind.

### Provide Cleaning Supplies at Multiple Locations Around the Workplace

5

- Having easy access to cleaning products helps employees to adopt new hygiene procedures and reduces the potential for spreading infectious disease.
