Mock OSHA Audit

Safety in the Workplace Takes Practice

if you had an OSHA inspection tomorrow, do you know what the outcome would be?

Safety Services Company provides on-site mock OSHA audits that identify potential compliance issues, and outline areas for improvement that will create a safer workplace. We can help you:

-  Address safety measures without the risk of citations or penalties
-  Create a safer work environment for employees and contractors
-  Potential to lower the number of insurance claims, and reduce insurance costs

How it Works

We schedule an onsite appointment with you.

An experienced professional conducts a mock OSHA audit.

Our Safety Advisors review the audit report with you.

We suggest a plan of action based on the report.

What's Included:

- Introductory meeting and discussion of trainings, policies, inspections, and accountability programs
- In-depth review of each chapter of the safety manual
- Review of loss runs
- Review of sign in sheets and inspection forms
- Site walk with focus on safety, compliance, and insurance issues
- Employee interviews about safety program in place
- Review of the accountability program for employees
